

**Before It's Too Late
...Conveyor Solutions**

Contact Conveyor Solutions for all your Planned Maintenance!

But why? What would benefit my company by performing Planned Maintenance on our equipment? Planned maintenance is conducted to keep equipment working and to extend the life of that equipment. A little forethought into planned maintenance now means fewer repairs and costly down time in the future.

Conveyor Solutions has what you need to perform your planned maintenance! Our experienced technicians are able to provide regularly scheduled maintenance for the components on your material handling system. We offer a Planned Maintenance Program that keeps your equipment in production by:

- Lubing And Changing Oil
- Identifying Faulty Parts
- Replacing Wearing Parts
- Identifying Potential Safety Hazards
- Providing A List Of Recommended Parts To Be Replaced
- Creating A "Recommended Spare Parts" List To Keep In Stock In Your Facility In Case Of Emergency

So Conveyor Solutions can provide the needed service on my system?

Of course! We have a full time service crew on staff, equipped with all the necessary tools and a mobile unit stocked with common parts. We can work around your operation to schedule a service call for a specific time and date.

But what if we have an emergency?!

Conveyor Solutions offers the finest in Emergency Service, to get your system up and running as quickly as possible. Day, night, or weekend, we are here for you.

Conveyor Solutions - The Right Solution for You
